

MARYLAND

Sections 14-3001 through 14-3003 of the *Maryland Commercial Law Code* govern the transmission of commercial electronic mail. Those code sections:

- Apply to email sent from a computer located in Maryland, or to an address that the sender knows or should know belongs to a Maryland resident;
- Forbid a sender to use another person's domain name or email address without permission;
- Make it illegal to falsify an email's routing information or subject line; and
- Entitle a recipient, a person whose domain name or email address has been used without permission, or a service provider to sue a violator for damages and attorney's fees.

Section 3-805.1 of the *Maryland Criminal Law Code*, a statute influenced by the federal CAN-SPAM Act, also governs the transmission of commercial electronic mail. That code section:

- Forbids a person to use another person's computer without authorization to send email, or to use another person's computer with the intent to deceive others about the origin of email;
- Outlaws the falsification of an email's routing information;
- Makes it illegal to register multiple email accounts or domain names under a false identity, falsely claim ownership of IP addresses, "harvest" email addresses, or generate email addresses by automated means;
- Authorizes the Attorney General to file suit to recover civil penalties or to seek an injunction against further violations of the statute; and
- Imposes criminal penalties on violators.
